01.

PROJECT BRIEF: ZOO SIMULATION

We carefully designed environments that reflect the natural surroundings of each species in a zoo, in an engaging setting.

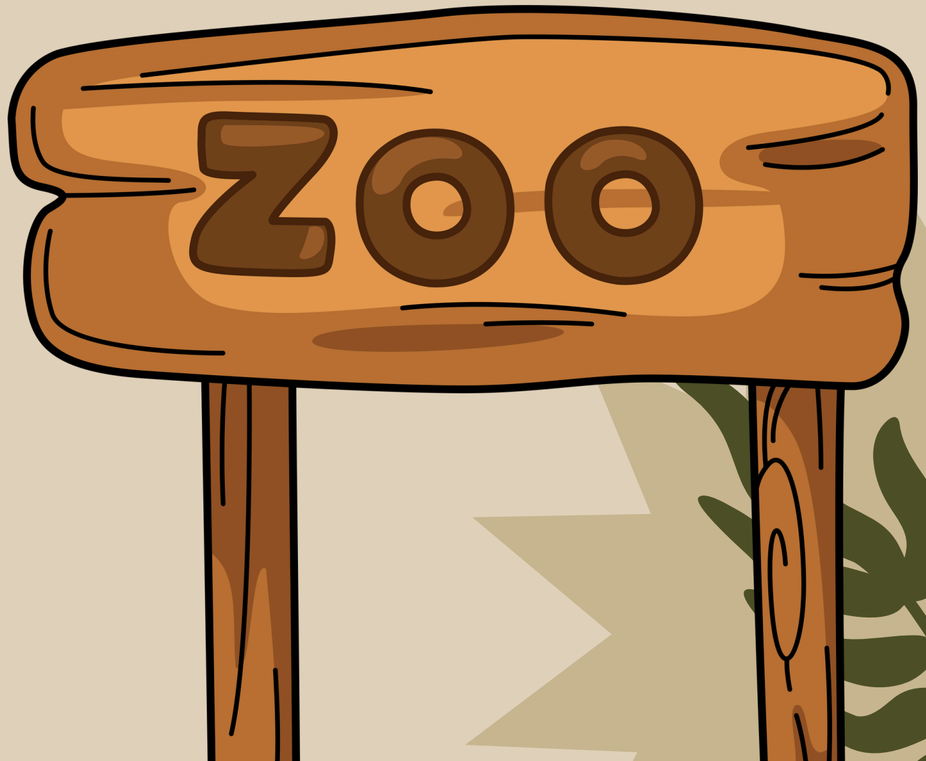

- Real-life zoo experience
- Guided walking tours
- Educational tour
- Interaction with Characters

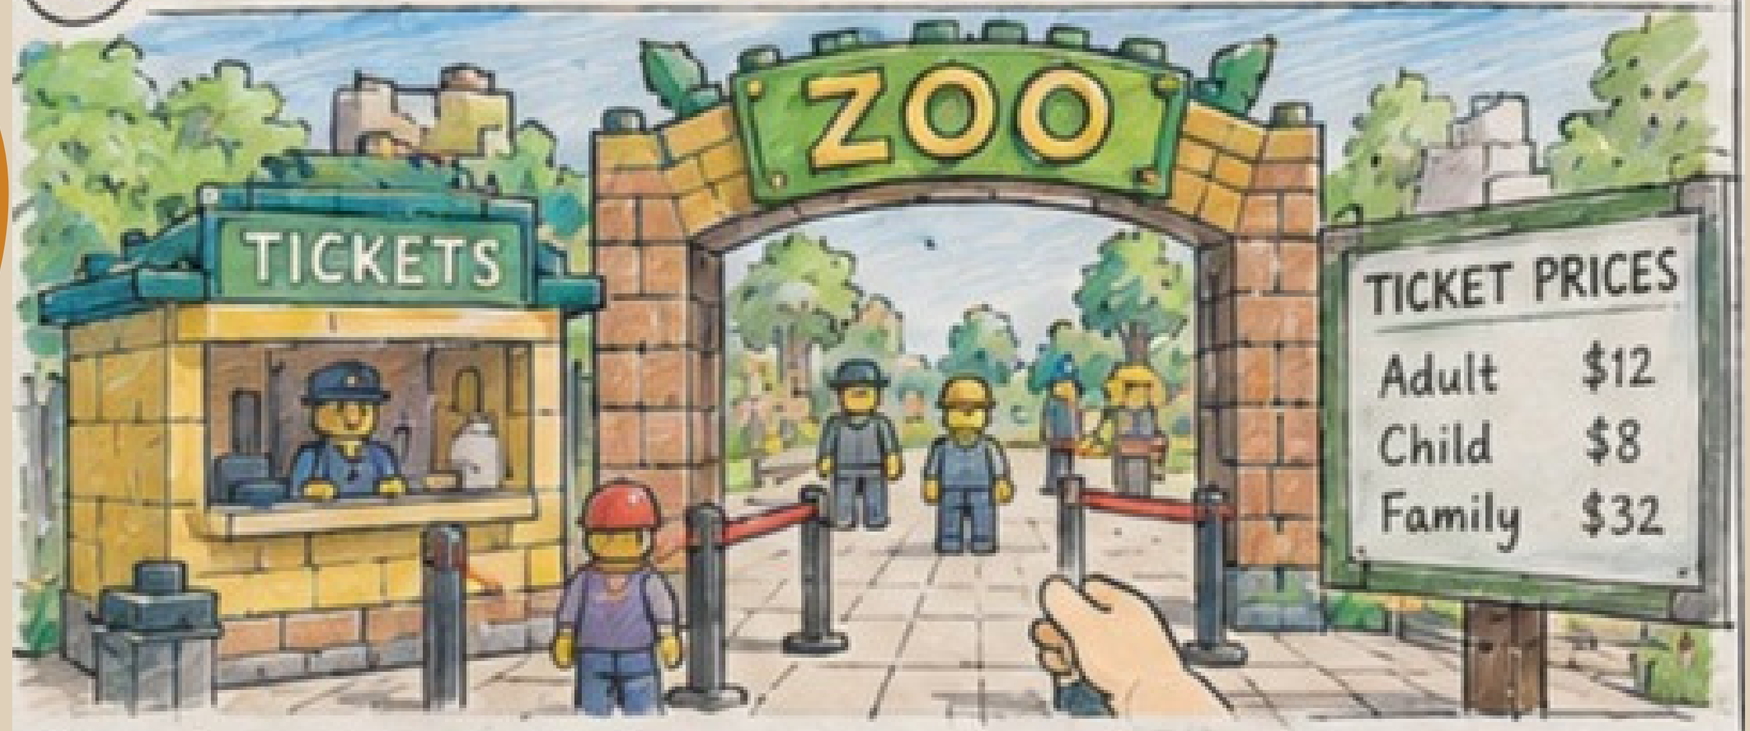

02.

STORYBOARD

The way the story progresses....

1 Entrance and Ticket Booth

The player arrives at the zoo entrance and buys a ticket from the booth. The family is shown near the entrance.

UI / Interaction:
- Press E to buy ticket
- Ticket confirmation message

2 Security Checkpoint and Gate

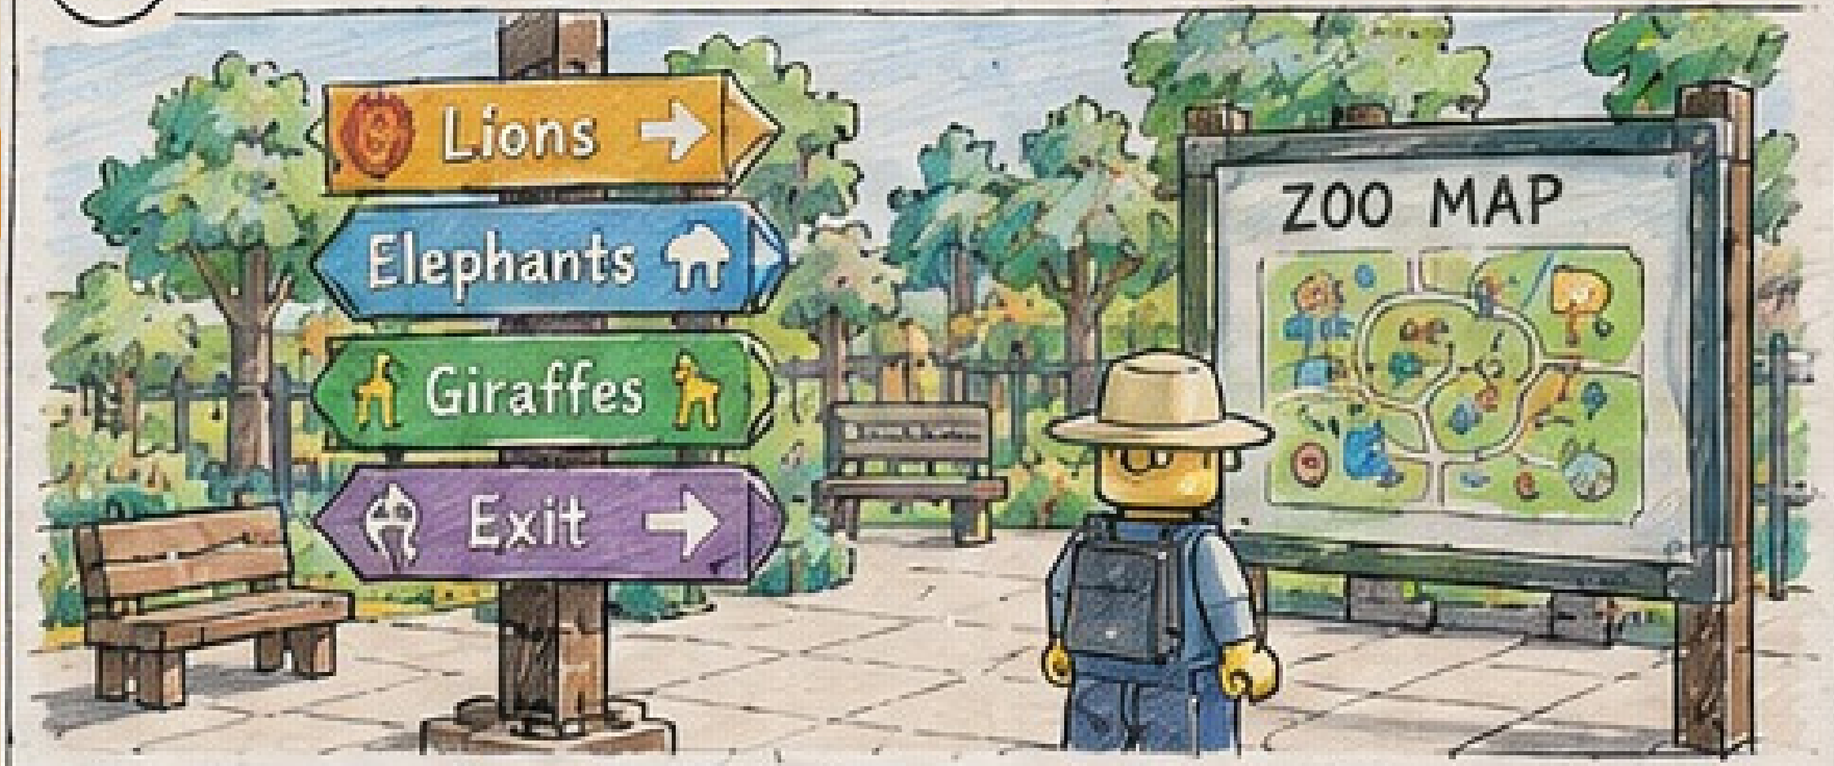

The player shows the ticket to the security guard, who checks and punches it. The gate opens to allow entry into the zoo.

UI / Interaction:
- Press E to show ticket
- Gate opens (animation)

3 Central Signpost and Map

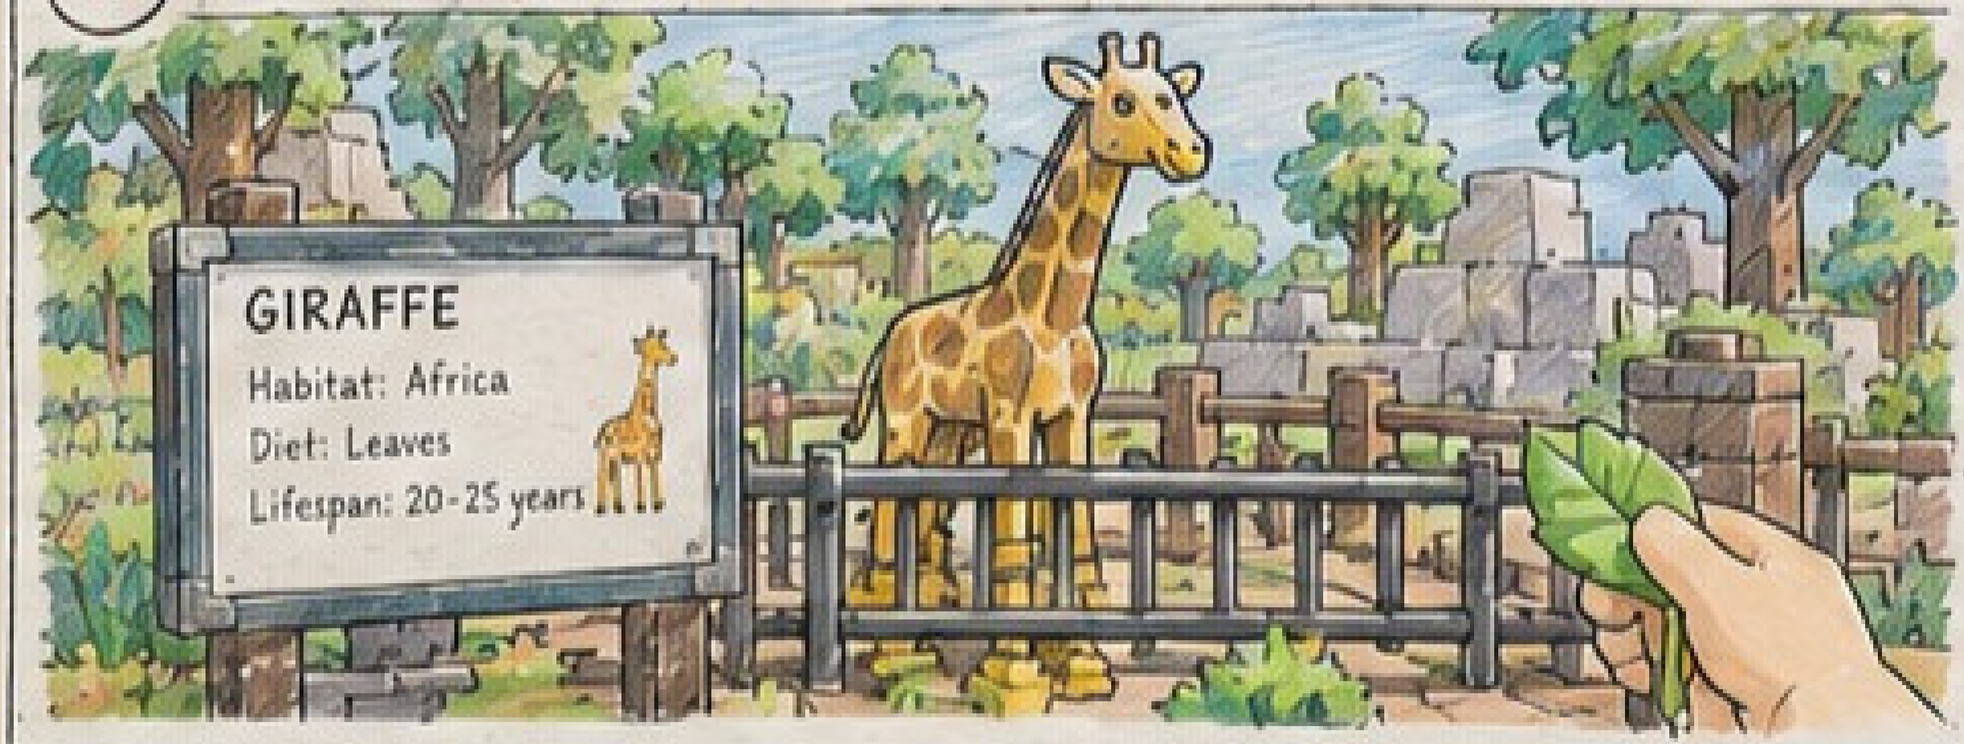

The player reaches the central area with a signpost and zoo map. Directional signs help guide the player to the animal enclosures.

UI / Interaction:
- Press E to view map
- Map overlay & directions

4 First Animal Enclosure – Giraffes

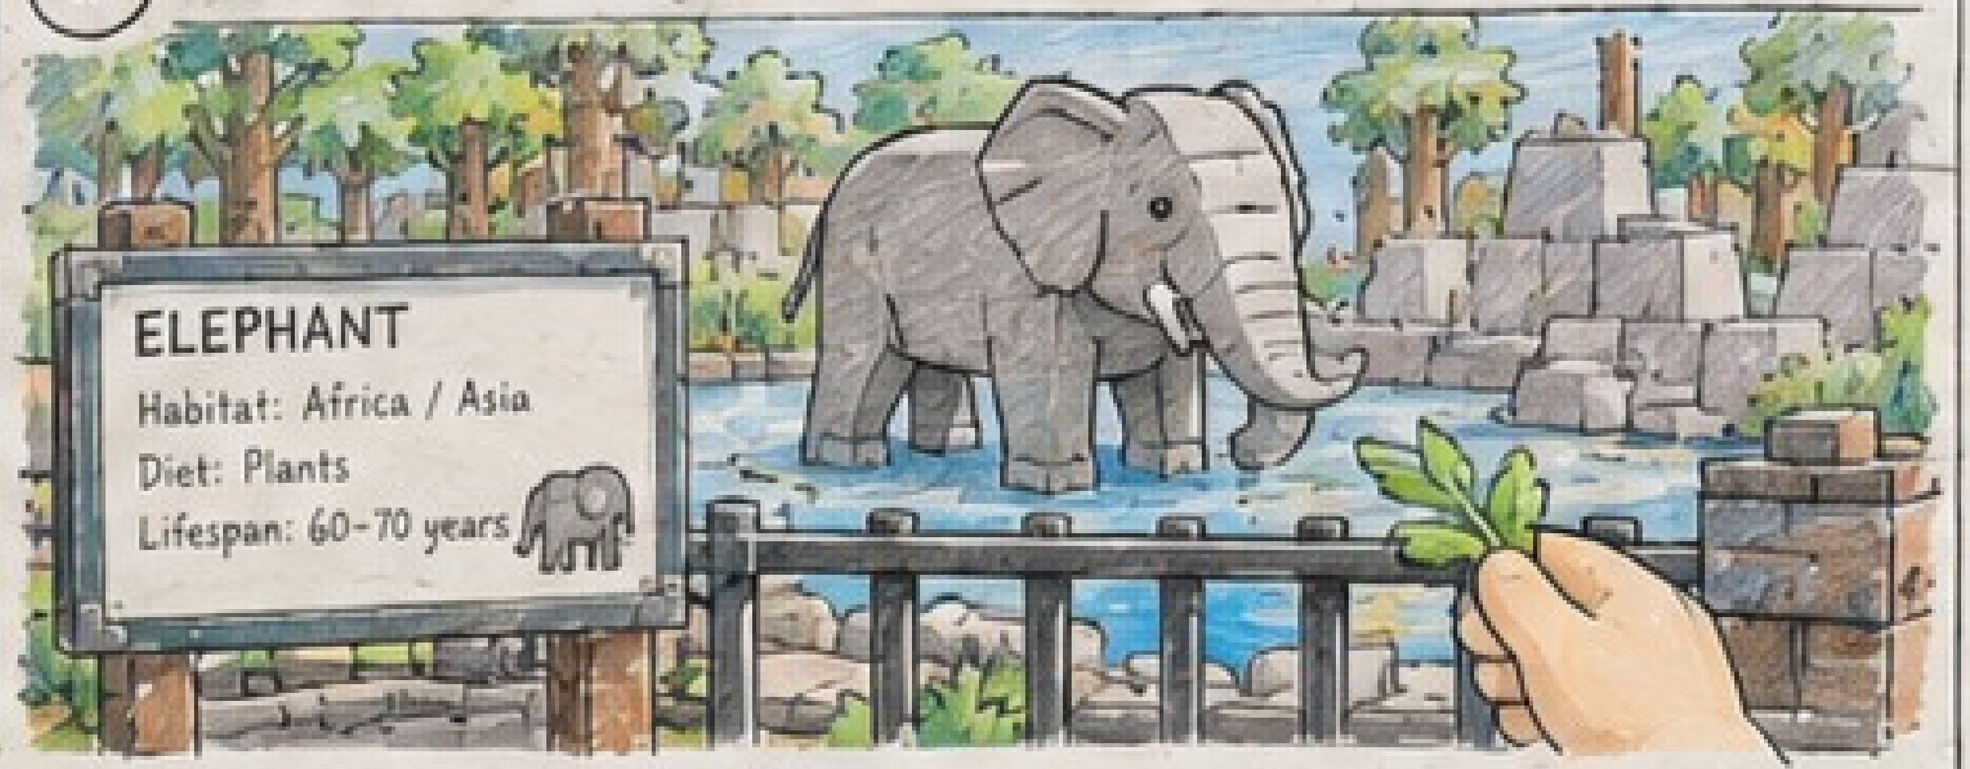

The player approaches the giraffe enclosure,
reads the information board and can feed the giraffe.

UI / Interaction:
- Press E to feed
- Info panel (E)

5 Second Animal Enclosure – Elephant

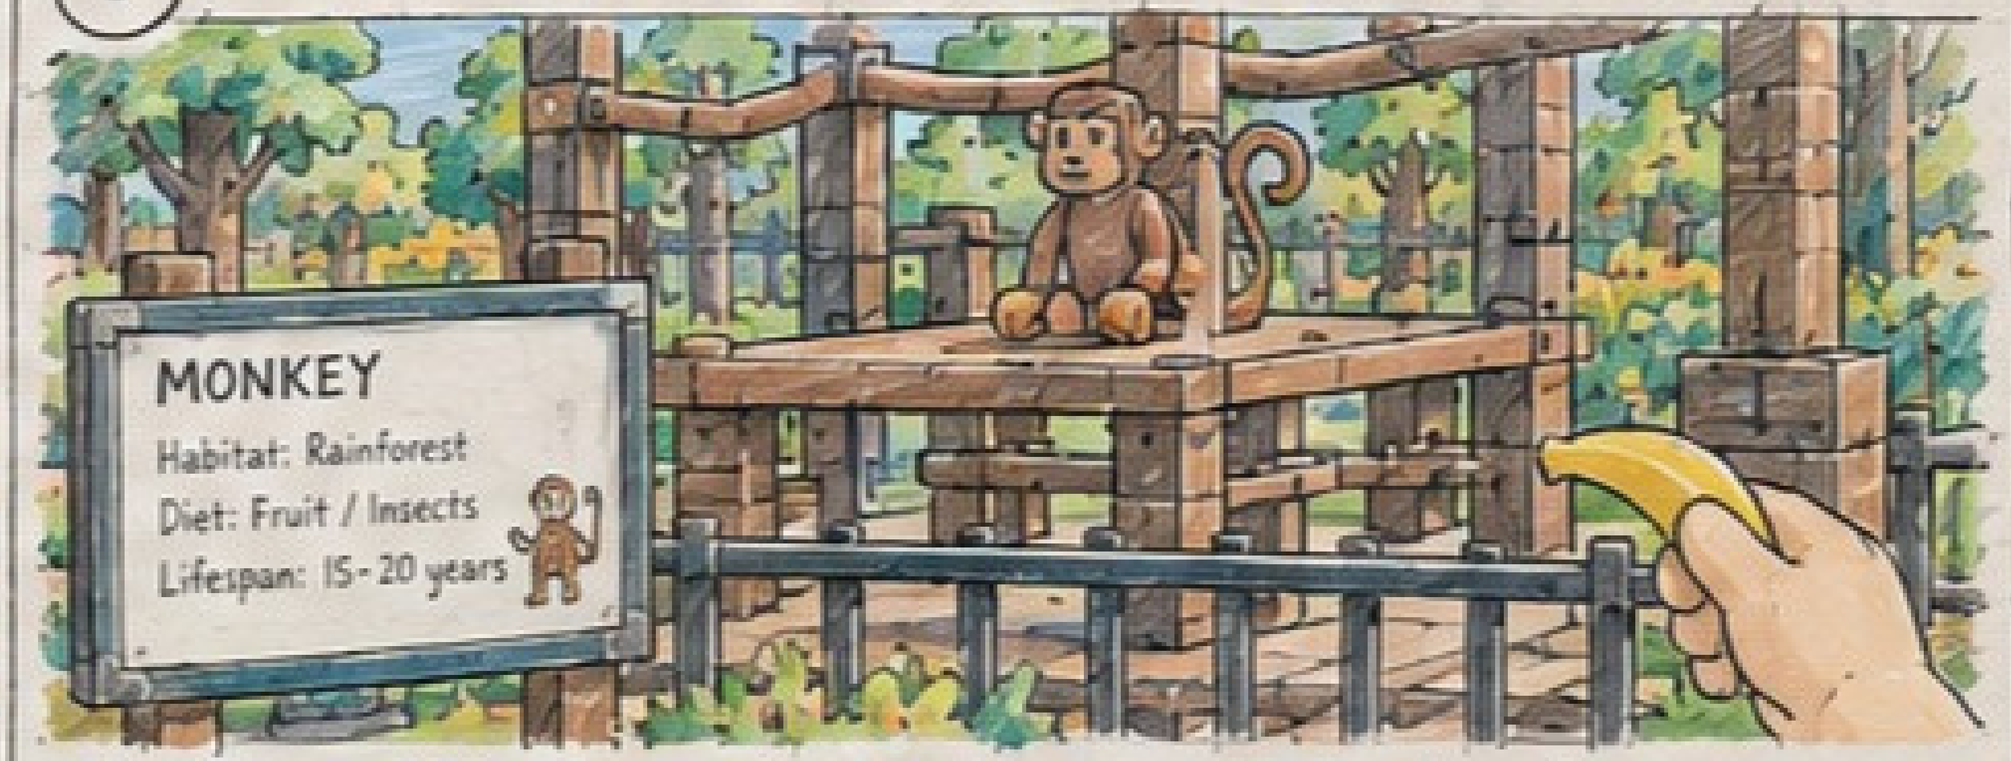

The player moves to the elephant enclosure,
reads the information board and can pet the elephant.

UI / Interaction:
- Press E to pet
- Info panel (E)

6 Third Animal Enclosure – Monkey

The player visits the monkey enclosure, reads the board and can feed or interact with the monkey.

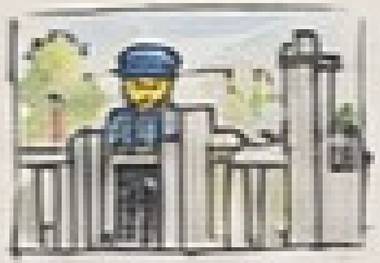

UI / Interaction:
- Press E to feed
- Info panel (E)

Scene Flow / Loop
